**MARYLAND AMBULATORY SURGERY
PROVIDER DIRECTORY
2005**

The Maryland Health Care Commission presents the eighth edition of the *Maryland Ambulatory Surgery Provider Directory*. The 2005 *Directory* contains data for the 2004 calendar year based on a survey of every licensed physician-office-based and freestanding ambulatory surgery center in Maryland. This *Directory* provides consolidated information about individual ambulatory surgical facilities as well as hospital-based providers for use by the Commission, health care providers, policy makers, health insurers, the public and many other organizations. The *Directory* also includes a list of providers by jurisdiction, information on specialties, and a list of freestanding facilities with hospital or health system affiliations. Also included is a list of facilities that closed during the 2004 survey year and the number of projected facility openings by jurisdiction for 2005.

Additional copies of the *Directory* may be downloaded from the Commission's website at <http://mhcc.maryland.gov/ambulatorysurgery> in pdf format. The information in this *Directory* is also available in electronic format in the *Maryland Ambulatory Surgery Facility Consumer Guide* located at <http://mhcc.maryland.gov/consumerinfo/amsurg>. Ambulatory surgery facility information, number of cases and patient demographics are available in Access format by going to: http://mhcc.maryland.gov/public_use_files.

A one page statistical profile of ambulatory surgery in Maryland in this *Directory* summarizes key data and provides comparisons of types of facilities, specialties, and the distribution of freestanding facilities across Maryland.

The *Directory* also includes an insert, the *Guide to State Regulations Affecting Freestanding Ambulatory Surgery Providers in Maryland*, as a resource for ambulatory surgery providers and for those considering establishing an ambulatory surgery center. Please note, some names and phone numbers have changed for the current edition.

The Commission has taken every measure to provide the most current and accurate information. However, some names, addresses or specialties may have changed before publication. Any updates, feedback or requests for copies of the *Directory* may be forwarded to:

The Commission thanks the ambulatory surgery providers for their contribution to this publication. Their participation in providing information is critical to the value of this *Directory*.

NOTES

- The number of operating rooms published in this Directory reflects data reported to the Commission in the 2004 Maryland Freestanding Ambulatory Surgery Facility Survey. The number of hospital operating rooms comes from a separate survey, the 2004 Ambulatory Surgery Provider Directory Form.
- The information and data in this Directory are reported as calendar years.
- Where N/A is reported, the data is either "not applicable" or "not available."
- Reported hospital cases reflect outpatient ambulatory surgery cases and do not include inpatient cases.
